

# Lyric Audiology

Bringing words and music to your ears

## HEAR IT HERE!

FEBRUARY 1, 2015 VOL 1, ISSUE 1

### WELCOME!

WELCOME to the Inaugural edition of *HEAR IT HERE!* the new newsletter of Lyric Audiology!

In *HEAR IT HERE!*, we will be bringing you the latest news on hearing, hearing loss, tinnitus, hearing aids and resources available to those with hearing problems.

There will also be a feature where YOU can Ask the Audiologist a question and we will get you the best answer available. You can e-mail your questions to: [lyricaudiology@aol.com](mailto:lyricaudiology@aol.com). You can also visit our web-site at [www.lyricaudiology.com](http://www.lyricaudiology.com) where you will find information, articles, etc.

You will also find special offers and coupons, as well as announcements of up-coming events.

### SPOTLIGHT ON TINNITUS

**Tinnitus**—those nasty, annoying sounds in your ears. It can be a ringing, buzzing, chirping, humming, hissing, ...whatever. It keeps you up at night, and keeps you from enjoying those quiet moments. And everyone tells you there is nothing that helps and just “live with it. “

**WRONG!!!!** Although not curable in most cases, tinnitus IS treatable and MANAGEABLE. It takes time, but it can be done.

First we start with a Complete Tinnitus Evaluation. Therapy then consists of a combination of different sounds and cognitive behavioral intervention.

The goal is **HABITUATION**. You don't notice the tinnitus and it no longer intrudes on your life.

If you have Tinnitus, **call our office at 845-395-0300** and we will arrange the first step—a complete Tinnitus Evaluation. There is Help available! Call now.

#### VALENTINE'S DAY SPECIAL!!!! \$500 off
